Period for Reply
-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 25 January 2011.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-34 is/are pending in the application.

DETAILED ACTION

Receipt is acknowledged of the election filed 01/25/2011.

Election/Restrictions

Applicant's election without traverse of Group I, species I (claims 1-21 and 23-29) in the reply filed on 01/25/2011 is acknowledged.

However in the listing of claims, claim 26 is listed as withdrawn. Therefore, it is unclear as to which claims were actually elected. Further, claims 21 and 27 involves non-elected subject matter. The non-glycerol carrier is not the same as the non-glycerol stabilizing agent, and the exogenous stabilizing agent was also non-elected but found in claim 27. Clarification is requested as to which species was indeed elected.

Further, upon review of the specification, it is clear that the invention stabilization of a bone grafts takes place through various means. These include acidification, removal of water, substitution of hydrogen with deuterium ions, cooling the reaction temperatures, and coating techniques. As such, while applicant's election of non-glycerol stabilizing agents is gratefully acknowledged, it is clear that stabilization through each of the claimed species occurs through widely divergent mechanisms. As such, an additional election will be required so that the invention can be adequately searched by the parameters setout by applicants. This examiner apologizes for the

additional, but necessary request for an election resulting from this further understanding of the invention.

This application contains claims directed to the following patentably distinct species 1) deuterized water, 2) protease inhibitors, 3) non-glycerol polyols, 4) polysaccharides, 5) acids. The species are independent or distinct because the stabilization of the graft occurs through independent and distinct mechanisms. In addition, these species are not obvious variants of each other based on the current record.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, or a single grouping of patentably indistinct species, for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1-3, 4, 5, 6, 10-20, 25 are generic.

There is a search and/or examination burden for the patentably distinct species as set forth above because at least the following reason(s) apply:

A search of each of these involves widely varied classification and search tools. .

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or a grouping of patentably indistinct species to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected species or grouping of patentably indistinct species, including any claims subsequently added. An argument

that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

The election may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the election of species requirement, the election shall be treated as an election without traverse. Traversal must be presented at the time of election in order to be considered timely. Failure to timely traverse the requirement will result in the loss of right to petition under 37 CFR 1.144. If claims are added after the election, applicant must indicate which of these claims are readable on the elected species or grouping of patentably indistinct species.

Should applicant traverse on the ground that the species, or groupings of patentably indistinct species from which election is required, are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing them to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the species unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other species.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141.

Because of the complexity of the election, a telephone call was not made to Kenneth E. Levitt on 03/25/2011 to request an oral election to the above restriction requirement.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to CARLOS AZPURU whose telephone number is (571)272-0588. The examiner can normally be reached on Tu-Fri, 6:30 am - 5:00 pm.
